PROJECT WORKS

DailyBurst

Live Api based news website | <https://dailyburstnews.netlify.app> | November 2023-December 2024

- I have developed a live Api based project.
- In this site user can see news with category and home page is like headlines.
- Multiple categories like entertainment, politics, unconventional, technology & more.

TO-DO LIST

A TO DO LIST website made by me using state management and hooks | <https://todobymuku.netlify.app> | May 2024-June 2024.

- Use of useReducer, useCallback, useEffect, useState
- In this I used tailwind CSS for designing.
- Options for add task, delete task, complete task...

PORTFOLIO TEMPLATE

A Tailwind based whole design of portfolio made by me. | <https://portfoliotemplatemuku.netlify.app> | June 2024

- Used Tailwind CSS to making this template website
- Made it all media size responsive.

DriveSyncParkX

IOT based project of smart parking system | May 2023 -May 2024

- An IOT (Internet of Things) based project
- User can book online parking slot and as well as providing a RFID card.
- User also get receipt on mail for booking a slot.
- With RFID card user can get directly entry exit on parking area.
- Smart balance deduction system and Api integration.
- Admin & user side user friendly Ui.

ADMIN PANEL ASTUTE INFOSOLUTIONS

In React JS Created Admin panel of The Company Astute InfoSolutions* July 2024-August2024

- Multiple Web pages
- Live Api integration of CRUD
- Handled multiple hooks, forms.
- Axios interceptor instance

DAILYBURST APP

Clone of my web site in app with different Ui | August 2024

- Single component rendering
- Used React Native and Expo
